

## *Guided Tour of: Borghese Villa and Museum*

*Rome 13 Nov – 3 pm*

The Galleria Borghese includes twenty rooms across two floors. The original sculptures and paintings in the Borghese Gallery date back to Cardinal Scipione's collection, the son of Ortensia Borghese - Paolo V's sister - and of Francesco Caffarelli, though subsequent events over the next three centuries entailing both losses and acquisition have left their mark.

Cardinal Scipione was drawn to any works of ancient, Renaissance and contemporary art which might re-voke a new golden age. He was not particularly interested in medieval art, but passionately sought to acquire antique sculpture. But Cardinal Scipione was so ambitious that he promoted the creation of new sculptures and especially marble groups to rival antique works.
